

Service Learning (SL) Reflection

Instructions: Please answer the following questions and summarize the key points in a reflective essay (3-5 paragraphs).

1. Research has shown that service learning helps to enhance “moral knowledge,” (Alesandrowicz & Jujwaya, 1998) and help make individuals become more aware of their own attitudes and biases. Do you agree or disagree. Please explain why.
2. Please describe your SL experience, including; location, population, time, service actions. Please be specific in discussing how many individuals you were engaged with and what specific needs you attempted to address and specific actions you took.
3. How did service learning give you greater insight into the needs of the community around you?
4. What impact did you make upon the community with your project?
5. How did the project impact you? What did you learn from this project?
6. Please discuss who benefited “the most” from your SL experience – you or the community – and if SL is “worthwhile” to middle school students? Please provide details.
